# About the Organization

Anjuman Raza-e-Mustafa Ahle Sunnat Welfare Society is a non-profit organization registered in the year of 2000 under the Societies Registration Act, 1860 with the sole purpose to serve the people particularly focusing on the education.

It is often said that no country can progress without investing in human capital. Our sacred concern is to provide quality education to students and to unlock their hidden talents also lies on us. However, the aim of education is not merely acquiring information but shaping future citizens who will be very competent, committed and steadfast to their values. Our students must learn how to lead a balanced existence, preserving the traditions and by adopting new changes in the society. The most important aspect is that the students should benefit values and virtues.

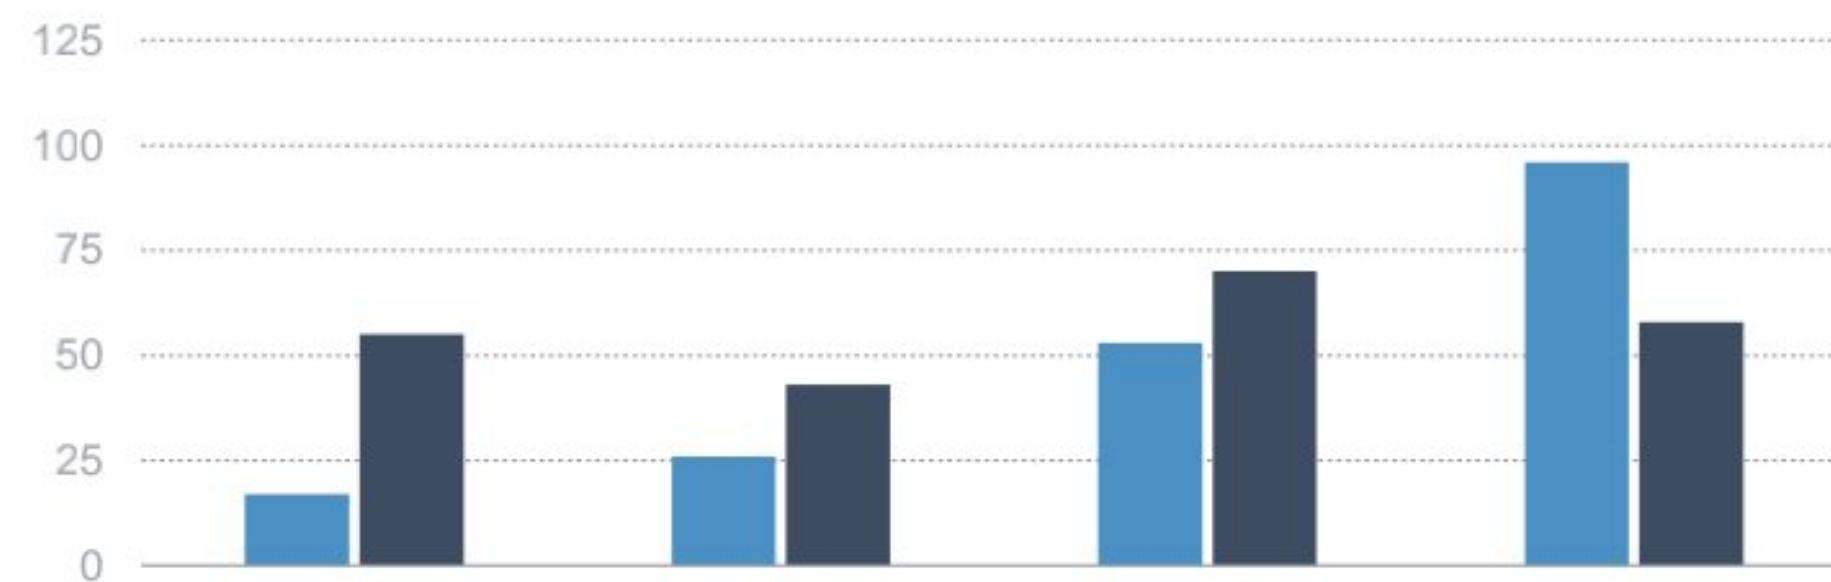

Imparting proper social, moral and spiritual values in students is essential to meet the challenges of modern age of Science and Technology. I firmly believe that values give direction, firmness and quality to life. It is necessary that the students become successful learners, confident individuals and effective contributors to the society which can only happen if they blend knowledge with values.

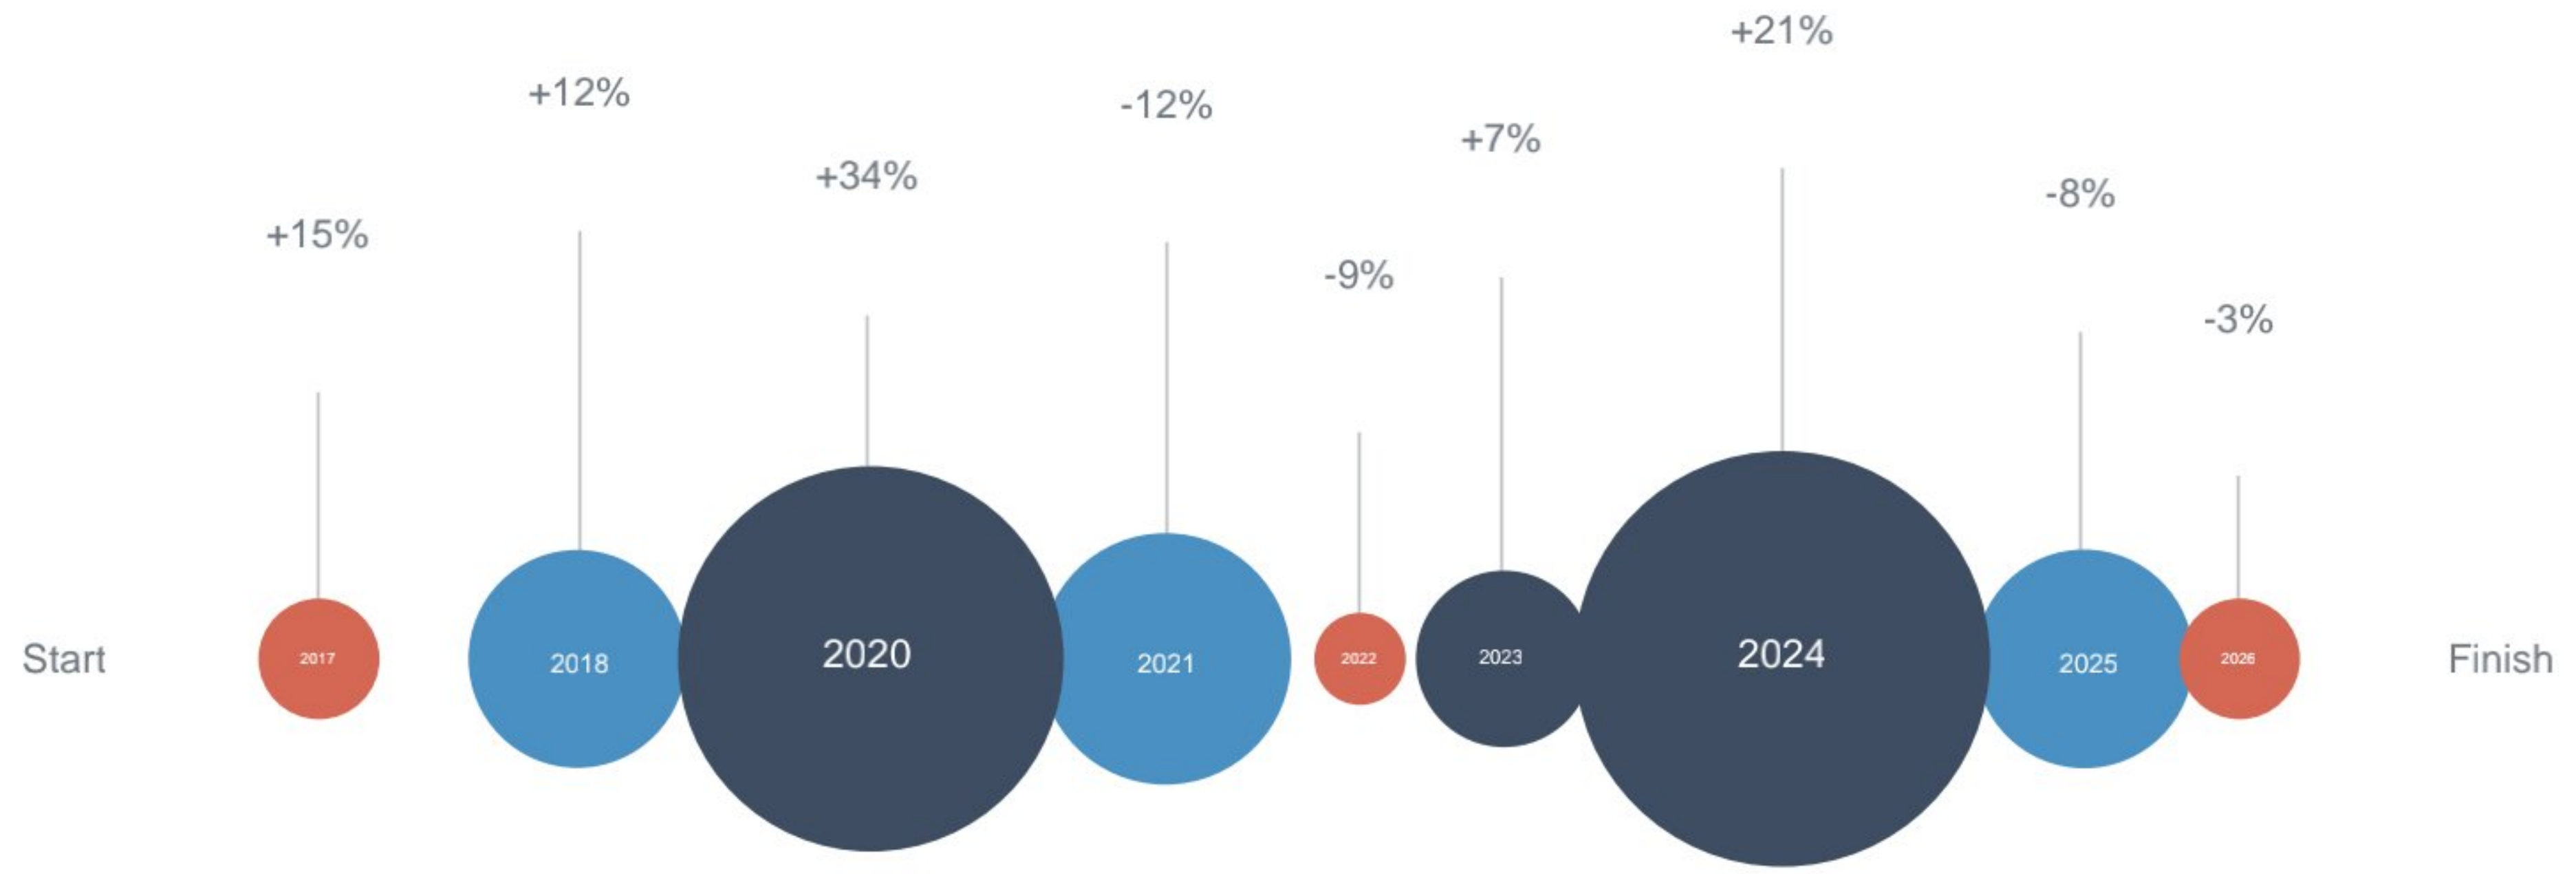

# Vision

We meet the requirements of Islamic education along with modern education for Muslim girls under one roof. We use the latest technology to the best of our ability to comfort and protect students. We provide opportunities for our students to pursue higher education in an Islamic environment by practicing the Qur'an and Hadith. From which our daughters feel proud to serve the country being on high position. This is our foremost goal.

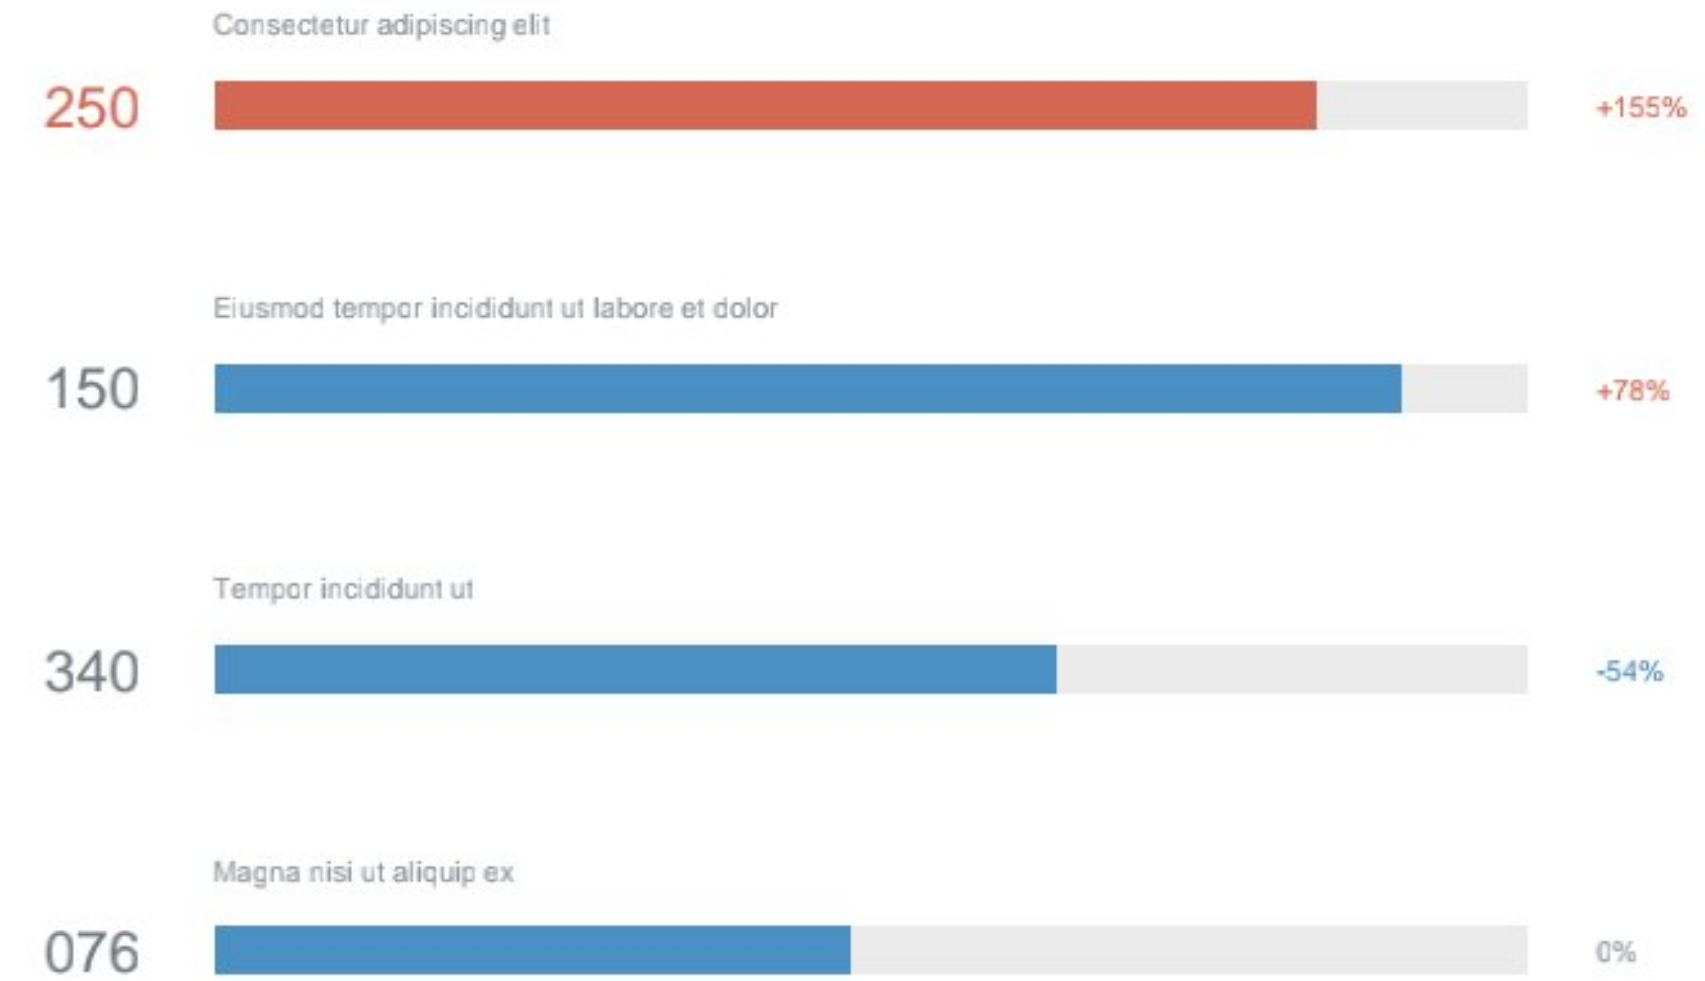

Our curriculum stresses on, “Healthy life”, “Social life”, “Expressive life”, “Communication life” and “Enquiry life” to develop the social, intellectual and emotional quotient of a child. Our classrooms and activities are designed in such a manner that they put a child at ease and stimulate learning. For us, it is imperative that the school be a place where a child is happy.

## Achievement

We encourage our students to dream beyond the imagination of ordinary students.

## Progress Bar

Here at school we try to develop intelligence and abilities rather than being fixed and limited to what the individual shows in his education.

# How We Work

.01

It is only in the giving of oneself to others that we truly live. No one is useless in this world who lightens the burdens of another. Certainly we are thankful to our donors who make us serve in the present capacity.

.02

Poverty is a very complicated issue, but feeding a child isn't. I've been making a list ... the sweat of its laborers, the genius of its scientists, the hopes of its children. We thrive ourselves to reach the maximum benefits to these children.

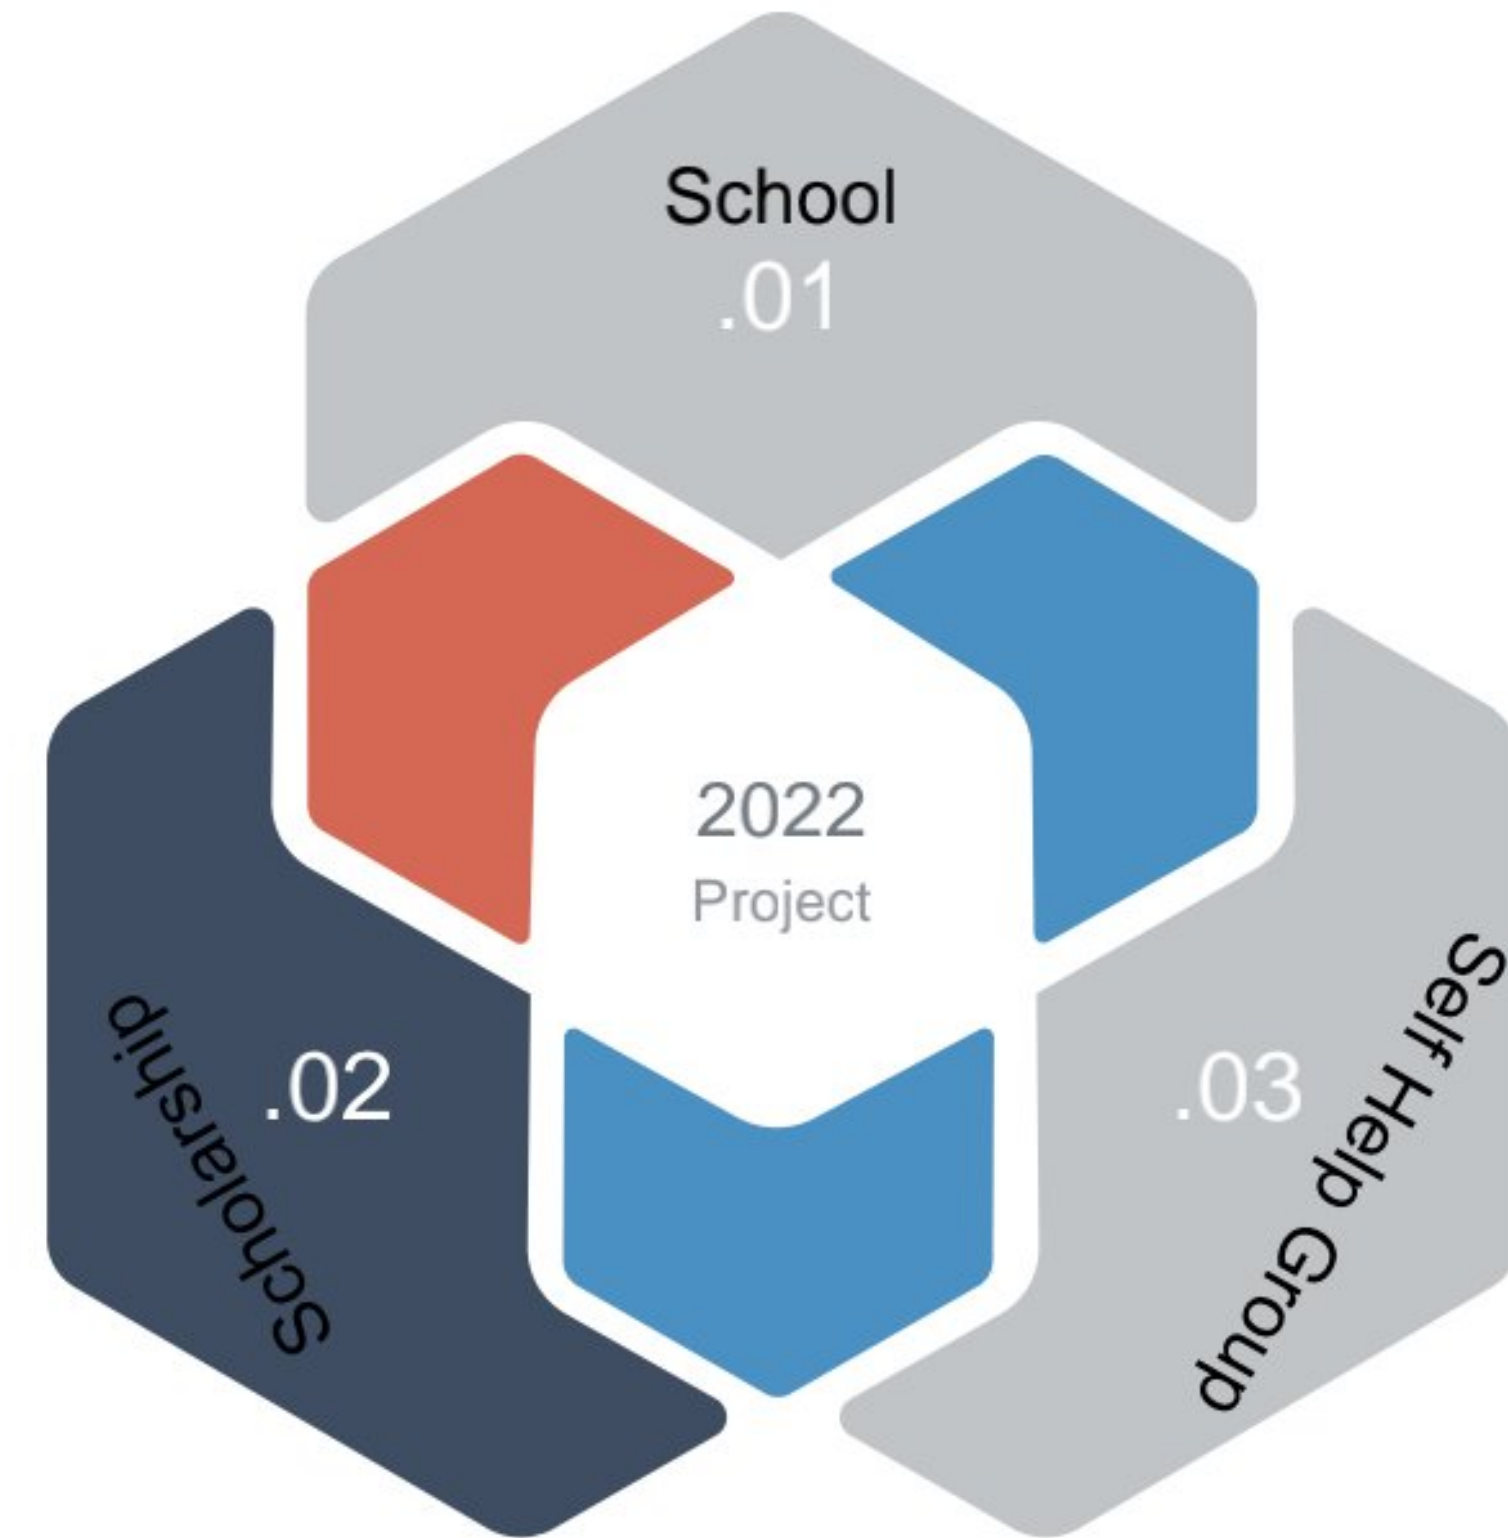

.03

Change will not come if we wait for some other person, or if we wait for some other time. We are the ones we've been waiting for. We are the change that we seek. Only the dedication of our team could make it happen.

# Future Projects

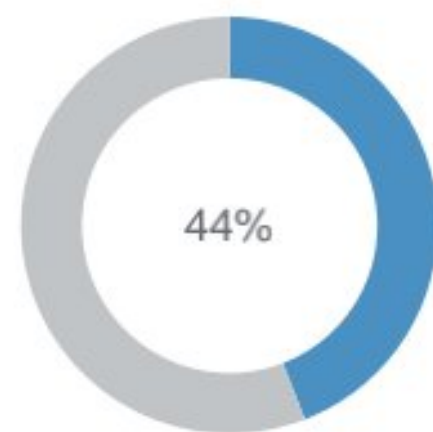

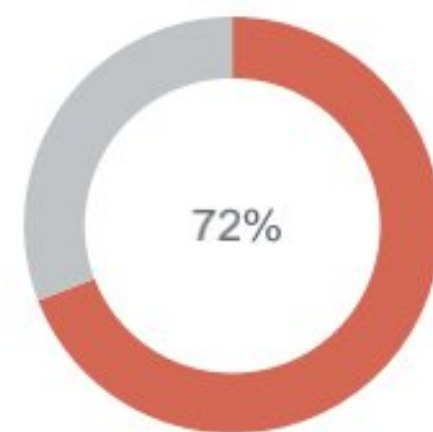

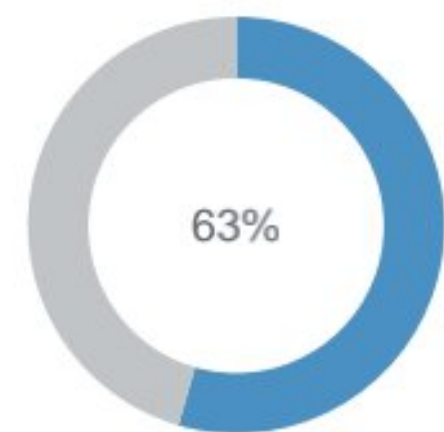

1. To establish a secondary level school to spread, promote and encourage education and learning with the idea of true spirit of the education and learning.
2. To award Scholarship to students with a view to help them in prosecuting their higher studies.
3. To establish employment generation center with the model of Self Help Groups for livelihood of the poor people.

# What We Do With the Funds
